Dear Sir:

Effective immediately, I resign my membership and party affiliation with your party.

I feel like my personal interests are no longer being adequately represented by your party and I have moved on to greener pastures.

I'm taking my country back. You took our jobs and sent them overseas. You blew the budget. Everyday we're drowning deeper in debt. Then you gave tax breaks to the millionaires and you tried to make the working man pay. But you can't tax a man if his job's not there. So I'm taking my country back.

Signed
